

JEMMS - Maths Intervention Vision OLC

What is JEMMS?

Junior Elementary Maths Mastery is a Direct Instruction program based on the Dr. Rhonda Farkota model.

It provides:

- Visual Delivery presentations including visual diagrams, formulas and display material.
- Whiteboard and Blackline Masters

What is the purpose of JEMMS at OLC

To develop confidence and competence for students needing support in Maths.

Which Students can participate in JEMMS?

Middle and Upper Primary students that have been identified (through in-school assessment and teacher professional judgement) as requiring support in Mathematics.

What do aim for our students in the JEMMS program at OLC?

- mapping and tracking of student progress
- identify precisely where and when students experience difficulty
- instilling fluency and automaticity in fundamental math skills
- increased confidence in Maths
- a more positive attitude towards Mathematics
